

Connecting Executives  
& Entrepreneurs with  
Emerging Leaders  
around the Globe

## Chris Cubra

**Eaton Corporation**

**Education**

Brown University, BS Mechanical Engineering  
Varsity Track and Field – Shot Put and Discus Thrower

**Professional Experience**

Manufacturing Supervisor  
Eaton's Leadership Development Program – Operations for Engineers

**Background**

Chris began working for Eaton (a global power management company) as an engineering intern while in college and joined them full time in 2017 as a participant in their Leadership Development Program. He has worked on product development, custom design engineering, capital management and manufacturing supervision.

While in his first job with Eaton, Chris helped to manage headcount and capital for a \$1.5 billion global business by working with teams throughout the Americas, Europe and Asia. He is now a supervisor in a plant that manufactures switchgear for many large companies.

Chris plans to pursue his Master's in Business and Engineering after completing the Leadership program.
