Professional Experience

Clinical Dietician, Sodexo, Children's Hospitals and Clinics of Minnesota, Minneapolis, MN (2013-present)

- Utilized Cerner EMR to complete comprehensive nutrition assessment and follow-up in the Pediatric and Cardiovascular ICUs using the Nutrition Care Process.
- Managed complex nutrition support regimens within a multidisciplinary team including parenteral and enteral nutrition as well as transitioning to oral feedings.
- Developed and implemented neonatal feeding protocol for the CVICU with multidisciplinary team including Cardiac Intensivist, Cardiologist, PCNP, OT and RN.
- Created specialized nutrition plans for patients and provide education for families both in English and with the assistance of interpreters.
- Provided education for nursing staff, physicians and nutritional services staff on a variety of different topics including evidence-based nutrition intervention, pediatric formulas, nutrition support and specialized diets.
- Presented at 2015 Harold Katkov Tutorial as well as 2015 Jill Davis Critical Care Nursing Conference.
- Implemented infant feeding summary and provided training for nursing staff at 2015 nursing education days.

Clinical Dietician, Sodexo, Prairie Lakes Healthcare System, Watertown, SD (2011-2013)

- Conducted nutrition assessment and follow-up utilizing the Nutrition Care Process in CPSI EMR throughout hospital including medical/surgical, telemetry, critical care units and pediatric patient care.
- Provided outpatient nutrition education for PLHS Cancer Center, Cardiac Rehab and general outpatient nutrition education.
- Responsible for marketing and leading phases one and two of the Create Your Weight weight management program.
- Authored articles for regional publication, *The Public Opinion*, as well as in-house Prairie Lakes Healthcare System's monthly newsletter, *Between the Floors*, and PLHS's Sodexo monthly newsletter.
- Presented prescriptive diet in-services to nutritional services staff and developed narrated prescriptive diet PowerPoint for nursing in-service.
- Implemented Nutrition Care Process into EMR for inpatient and outpatient care at PLHS in collaboration with CNM.
