

Michael Pappas

Education

Bachelor of Science, International Business, Business Administration, Minnesota State University-Mankato, Mankato, MN.

Professional Experience

Senior Executive of an owner/management firm for a 2000 plus multi-housing and medical portfolio that is based in Minneapolis with properties throughout MN and North Dakota. The Management Company Principal is also the lead investor for all properties under management. Active roles included in this: partnership strategy/evaluation, developer status, master lease development/negotiation, architect, and general contractor evaluation/selection, and city approval process strategy/plan.

Co-founder and former CEO of FAIRx Pharmaceuticals Inc, DBA FairCareRx. Mike was responsible in guiding the start up, implementation, operations, growth and direction while working closely with the Chairman, Board of Directors, and investors. Mike is past CEO/Co-founder of Pocket Technologies Inc., a software tools development company that made development tools for the PalmOS operating system developer's market. Pocket Technologies Inc. was sold in June of 2003.

Vice President Miller-Pappas Ventures, Inc., a holding company with investment/management interests in medical product distribution, software management, and manufacturing of technology-based products. As an authorized 3M medical distributor, he spearheaded the formation of MedMex International-Mexico City, overseeing regulatory compliance issues addressing new business formation on a local, state and federal level and served the government controlled health care sector. Mike has traveled extensively to Singapore, Mumbai(Bombay) India, and Mexico.
